## Professional Summary

Full Stack Developer with 6+ years of experience building scalable web and mobile applications using Laravel, React, and NestJS. Proven expertise in architecting SaaS platforms, leading remote teams, and integrating AI-driven solutions. Recognized as a Top Rated Seller on Fiverr and Upwork with 80+ successful projects worldwide. Passionate about developing high-performance systems that combine great UX with robust backend architecture.

## Work Experience

- Data Management Officer

Tameer-e-Khalaq Foundation, Islamabad, Pakistan | Feb 2024 – Present

- Built and deployed an internal attendance and reporting system used by 500+ employees, reducing manual HR reporting time by 40%.
- Developed in-house systems for employee attendance tracking, issue management, and LMS distribution.
- Implemented real-time data collection and analytics tools using Laravel, NestJS, and Next.js.

- Freelance Full Stack Developer (Top Rated Seller)

Fiverr & Upwork | May 2022 – Feb 2024

- Delivered 80+ full-stack projects using Laravel, Livewire, React, Node.js, and Next.js.
- Specialized in AI integration, web security, and scalable system architecture.
- Managed cloud deployments across VPS, AWS, and cPanel environments.

- Senior Web Developer

Elemental Logix (Previously MaxHomeLogic), Remote | Jan 2022 – May 2023

- Led a team of developers creating SaaS solutions for home inspection businesses.
- Designed scalable backend APIs with NestJS and frontend interfaces using Next.js.

- Web Developer

DynamoLogic Solutions, Remote | Sept 2020 – Apr 2023

- Developed backend APIs and third-party integrations using Laravel and NestJS.
- Built interactive frontends using Vue.js and React.

- Web Developer

SyncIt Solutions, Remote | Sept 2019 – Apr 2020

- Managed ISP management system with Microtek API integration using NestJS backend services.
